"Dedicated to mastering the complexities of backend engineering and SRE, ensuring robust and scalable solutions."

## **Skills**

Programming Languages Python (Expert), Bash, SQL

**Infrastructure & DevOps** Kubernetes, Docker, Terraform, AWS, CI/CD (GitHub Actions)

Site Reliability Engineering

Monitoring and Alerting Systems, Performance Tuning, Incident Management, Reliability Engineering Principles

**Data Engineering** Data Pipelines, Large Scale Data Processing, Data Analysis

API Development Designing RESTful APIs, GraphQL, API Integration and Management, Microservices Architecture

# **Experience**

#### **Gainwell Technologies, Conway, AR**

SOFTWARE ENGINEER June 2023 - Present

· Led SRE initiatives, achieving 99.99% uptime through strategic implementation of monitoring systems, alerts, and SLOs, directly enhancing system reliability and client satisfaction.

- Designed and executed CI/CD pipelines using GitHub Actions, streamlining deployment processes for enhanced efficiency.
- · Orchestrated containerized application deployment via Kubernetes on AWS EKS, optimizing for auto-scaling and high availability.
- Developed RESTful APIs with FastAPI and managed their EKS deployment via Terraform, establishing a resilient container environment.
- · Automated text extraction in AWS S3 using Amazon Textract and AWS Lambda, centralizing data into a data lake for improved access and analysis.
- Managed AWS infrastructure using Terraform, overseeing services such as EC2, S3, RDS, Elastic Load Balancers, and VPCs.
- Integrated Large Language Models via Amazon Bedrock into data analytics processes for enhanced natural language understanding capabilities.

#### Gainwell Technologies, Conway, AR

SENIOR DATA ENGINEER June 2022 - March 2023

· Architected an enterprise-level data lake utilizing AWS Glue, Amazon S3, PySpark, Hadoop, Python, and PostgreSQL, significantly boosting data processing efficiency.

- Integrated the data lake with Amazon RDS via SQL views for a Django frontend, enabling seamless data access and manipulation.
- · Automated complex data retrieval using Python libraries (Requests, aiohttp, asyncio, Selenium, Beautiful Soup), enhancing data acquisition speed and reliability.
- Developed real-time dashboards in PowerBI and custom visualizations using Plotly and Django, delivering insightful data analytics to
- Ensured high availability and scalability of web applications hosted on Amazon EC2.
- · Implemented robust security measures, including SSL encryption and firewalls, to safeguard data and applications.
- · Proactively monitored applications and infrastructure, minimizing downtime and maximizing operational reliability.

#### Lambent Spaces, Boston, MA

IMPLEMENTATIONS SPECIALIST March 2021 - June 2022

- Directed software implementations, ensuring customer requirements were met through effective network and system configurations.
- Optimized deployment processes, resulting in heightened efficiency and improved customer satisfaction.
- Fostered collaboration with cross-functional teams to refine deployment workflows and procedures.
- Authored and utilized SQL and Python scripts for automation and efficient problem resolution.

#### CVS HEALTH, Cumberland, RI

DATA ANALYST (DESKTOP SUPPORT)

May 2019 – March 2021

- Designed and deployed O365 Apps for Enterprise across 80k devices, leveraging Python and Excel for efficient reporting and achieving a 30% increase in deployment efficiency.
- · Created and maintained business-focused reports using Dash/Plotly, SharePoint, and Excel, driving informed decision-making processes.
- Conducted extensive data normalization from SCCM and Active Directory, ensuring data accuracy and consistency.
- Played a pivotal role in Windows 10 Enterprise Migration, focusing on rigorous testing and quality assurance of developed reports.

### **SPENCER TECHNOLOGIES, Medway, MA**

CLIENT ONBOARDING SPECIALIST

Jan 2017 – Apr 2019

- Implemented the Smartsheet Request Management System, resulting in annual cost savings of \$16k.
- Successfully onboarded new business ventures worth over \$15 million, enhancing company growth and market presence.
- Developed and executed project plans for multiple IT projects, leading teams to successful and timely client launches.

# **Education**

### **Indiana State University**

Terre Haute, IN

**B.A. IN ENGLISH**Aug 2006 – June 2008
